

# Literaturverwaltung mit ZOTERO

Referent: Thomas Triller

Zotero is a free, easy-to-use tool to help you collect, organize, cite, and share research.

Zotero is a free, easy-to-use tool to help you collect, organize, cite, and share research.

The diagram illustrates a research workflow. At the center is a large blue circle. Four smaller blue circles are arranged around it: 'Organisieren' at the top, 'Volltexte' at the bottom, and two unlabeled circles on the left and right. Blue arrows point from the central circle to each of these four surrounding circles. Two large yellow arrows are overlaid on the central circle: one pointing left labeled 'Online-Bibliothek' and one pointing right labeled 'Gruppen-Arbeit'.
